

This 27km loop is mostly on off-road paths. It reveals the best of the region's extensive waterways – Georges River and its associated lakes and wetlands, and Prospect and Orphan School creeks.

Orphan School Creek Cycleway, to Western Sydney Regional Park & Prospect Reservoir.

The route crosses the Hume Hwy near Lansdowne Bridge, one of mainland Australia's oldest, built 1836.

Decades of rehabilitation, which continues, have transformed this former sand-mining area into extensive lakes and parklands.

Prospect Creek views and shady picnic areas make Mirambeena RP the perfect place for lunch.

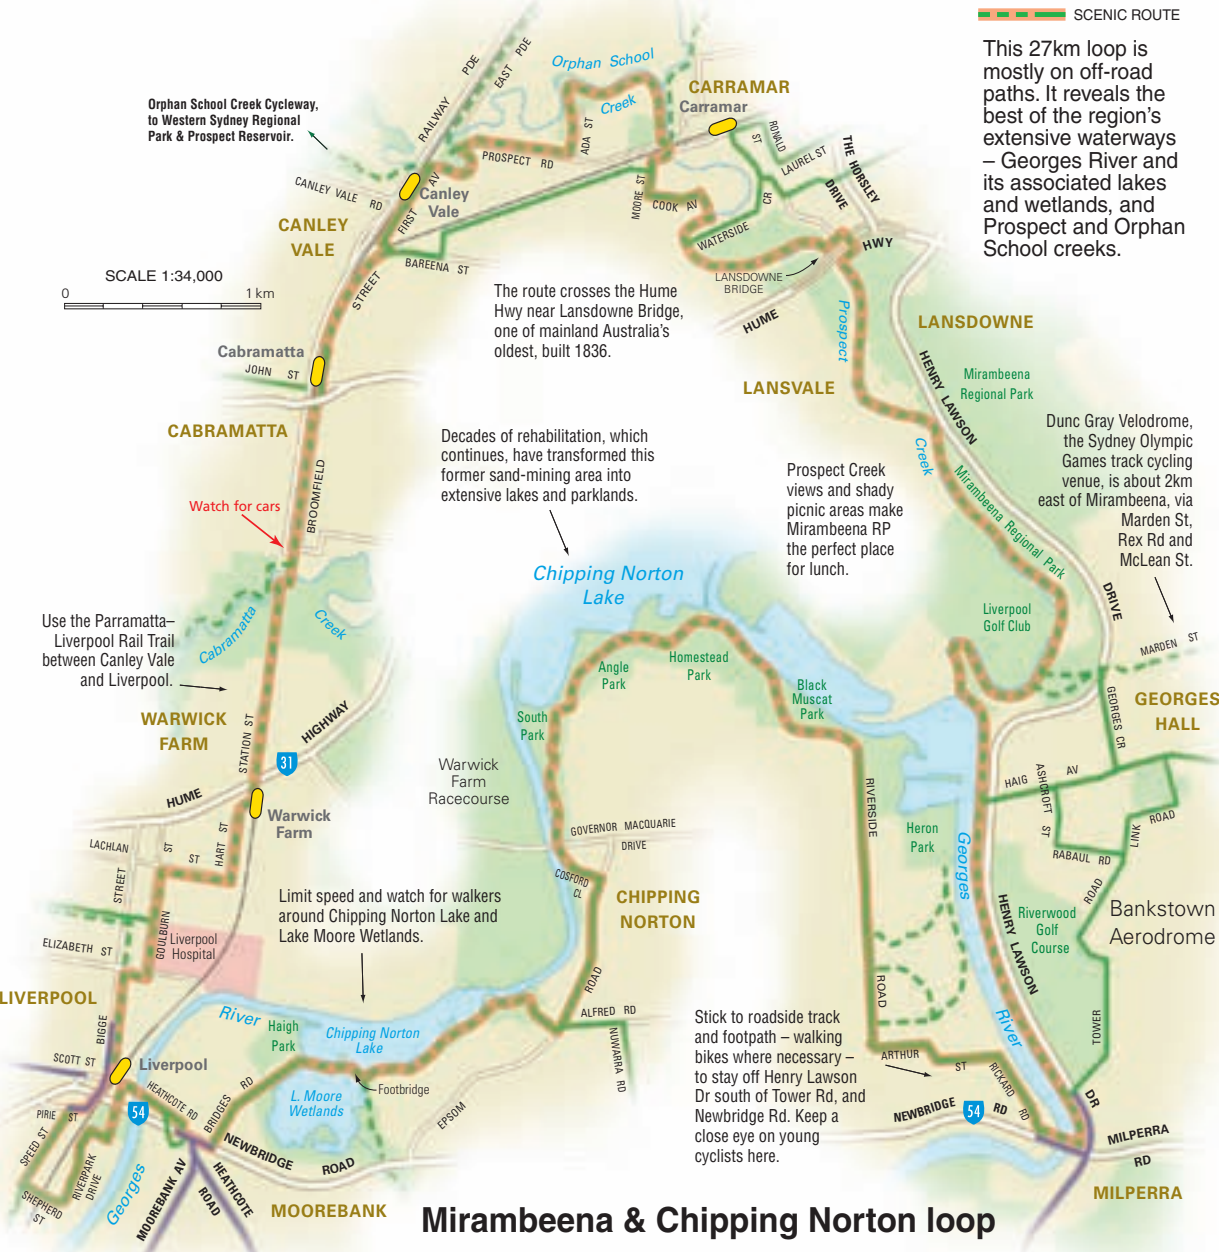

Dunc Gray Velodrome, the Sydney Olympic Games track cycling venue, is about 2km east of Mirambeena, via Marden St, Rex Rd and McLean St.

Use the Parramatta–Liverpool Rail Trail between Canley Vale and Liverpool.

Watch for cars

Limit speed and watch for walkers around Chipping Norton Lake and Lake Moore Wetlands.

Stick to roadside track and footpath – walking bikes where necessary – to stay off Henry Lawson Dr south of Tower Rd, and Newbridge Rd. Keep a close eye on young cyclists here.
